DETAILED ACTION

Claims 1-25 & 38 are pending; of which, **Claims 1, 2, 10 & 18** are currently amended and **Claim 38** is new.

Response to Amendment

Applicants' amendments to **Claims 1, 2, 10 & 18** have been considered and are entered. With respect to **Claim 1**: **R¹** is understood to be an aryl or heteroaryl optionally substituted with a crosslinkable group. Applicant's comments, 04/03/2007, have clarified the record.

Response to Arguments

Applicants' argument, see Amendment – After Non-Final Rejection, filed 04/03/2007, with respect to the prior art anticipation by Hirose *et al.* (JP 2004030942 A2, published 1/29/2004) have been fully considered but they are not persuasive. Applicant is comparing the prior art compounds RN 651048-27-0 and RN 651048-28-1 with the embodiments from the specification on page 5. Examiner cannot read limitations from the specification into the claims. Further, Applicant states that the Office Action has not established that the styryl and ethynylbenzene substituents in the Hirose *et al.* compounds are polymerizable (crosslinkable) in that reference. Examiner points out that the compounds taught by Hirose *et al.* meet all of the limitations of the instant claims and it is not necessary for the prior art reference to have the same utility as the invention of the instant application. One of skill in the art would recognize that

essentially "any polymerizable group can function as a crosslinkable group," (see page 2, II. 32-38 of the instant specification), and that the styryl and ethynylbenzene substituents would both be considered a polymerizable group.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1, 2, 6, 7, 17-20, 23 & 25 are rejected under 35 U.S.C. 102(a) as being anticipated by Hirose *et al.* (JP 2004030942 A2, published 1/29/2004). Taught in the Japanese Patent by Hirose *et al.* are the compounds RN 651048-27-0 and RN 651048-28-1; in which R^1 contains a crosslinkable group and E is $C(R^5R^6)$, (see Office Action 12/06/2006).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. § 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 38 is rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Said claim recites the language "comprising" and the scope of this term is unclear. The transitional term "comprising", which is synonymous with "including," "containing," or "characterized by," is inclusive or open-ended and does not exclude additional, unrecited elements or method steps. See: e.g.,

Art Unit: 1626

Genentech, Inc. v. Chiron Corp., 112 F.3d 495, 501, 42 USPQ2d 1608, 1613 (Fed. Cir. 1997) ("Comprising" is a term of art used in claim language which means that the named elements are essential, but other elements may be added and still form a construct within the scope of the claim.); *Moleculon Research Corp. v. CBS, Inc.*, 793 F.2d 1261, 229 USPQ 805 (Fed. Cir. 1986); *In re Baxter*, 656 F.2d 679, 686, 210 USPQ 795, 803 (CCPA 1981); *Ex parte Davis*, 80 USPQ 448, 450 (Bd. App. 1948) ("comprising" leaves "the claim open for the inclusion of unspecified ingredients even in major amounts"). Examiner suggests deleting the word "comprising" and inserting the words - - consisting of - -.

Claim Objections

Claims 3-5 & 21 are objected to as being dependent upon a rejected base **Claim 1**, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). Applicant's amendment (with respect to **Claim 38**) necessitated the new ground(s) of rejection presented in this Office action.

Accordingly, **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1626

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
